

# Teaching Statistics Through Data Investigations

Online Course Starting September 28th  
Registration is now open!

[go.ncsu.edu/tsdi](http://go.ncsu.edu/tsdi)

Learn with colleagues near and far in this 6-week, online professional development course, designed for teachers of statistics in grades 6-12 and post-secondary contexts. This course can help you learn to teach statistics using investigations, with real data and real cool tools! The course is **FREE** and can lead to continuing education credits.

Offered through the Friday Institute for Educational Innovation at NC State University  
Lead instructor: Dr. Hollylynne Lee, Professor of Mathematics Education
