New Zealand Olympic Team Data Cards 2024

By: Pip Arnold

A set of data cards for the 2024 New Zealand Olympic Team - 32 athletes who are competing at the Vaires-sur-Marne Nautical Stadium. The data was sourced from the **New Zealand Olympics website**.

Find out about individual athletes by typing their names in the search bar. You can filter by Games Type (Olympic Summer Games), and Sport to find the athletes in a sport or group of sports.

The **Vaires-sur-Marne Nautical Stadium** will host the Olympic rowing and canoe-kayak events.

See information about **using data cards** for ideas on what to do with the data cards. Other ideas include:

- Make a set of data cards for another sport or group of sports.
- Make a set of data cards for a **venue**
- Add variables to the existing set of data cards, e.g., the Olympian number, where they are based, did they compete in the Youth Olympics, what year was their Olympic debut

All the data that is in the data cards is also in the CODAP document listed in the resources.

Variables in the data card set provided:

Variable	Description
Name	Athlete's name.
Sport	The Olympic sport they are competing in.
# Olympics	The number of Olympic games they have competed in, *including Paris*.
Medals	Number of Olympic medals the athlete has won. For those that Paris is their first Olympics, this is zero.
Best placing	This is their best placing in any of the events they have competed in. This has been left blank for those that Paris is their first Olympics.
Paris events	The number of events in their sport they are competing in at the Paris Olympic Games.

This activity explores the following key ideas:

- Using existing data to undertake a statistical enquiry

Resources

- **Olympics NZ - Rowing, Canoe Kayak Sprint, Canoe Kayak Slalom data cards**
- **CODAP document - Olympics NZ - Rowing, Canoe Kayak Sprint, Canoe Kayak Slalom**
- **Blank data cards - make your own set of NZ Olympic Athlete data cards**
